PROFESSIONAL SUMMARY

Full-stack Developer and AWS Certified Cloud Practitioner with experience in Laravel, React, and Cloud Infrastructure. Proven ability to build, deploy, and maintain production-ready applications with a focus on high availability and security.

EXPERIENCE

HRWEB Inc. | *Junior Programmer* | March 2024 – Present

- Develop financial applications using Laravel 12, React, and Inertia.js; optimized backend queries to improve system performance.
- Design responsive UI/UX with TypeScript and Tailwind CSS, ensuring cross-device compatibility.
- Conduct unit/integration testing and manage deployments across Dev, UAT, and Production environments.
- Collaborate with business analysts to document technical requirements and system configuration updates.

DJGIBRO Tech | *Freelance Full-Stack Developer* | Feb 2023 – Present

- Developed and maintains the official company website on Oracle Cloud Infrastructure (OCI) using Linux VMs.
- Manages full DevOps lifecycle: DNS configuration, SSL/TLS certificates, and automated uptime monitoring.
- Achieved 99.9% site availability through proactive server optimization and performance tuning.

AWS | *Cloud Engineering Trainee / AWS re/Start* | Sept 2023 – Jan 2024

- Deployed scalable infrastructure (EC2, RDS, S3) and automated tasks using Python scripts.
- Applied Well-Architected Framework principles to ensure security and reliability of cloud environments.

DEI GRATIA SCHOOL INC. | *IT Support Intern* | Mar 2023 – Jul 2023

- Troubleshot network hardware and software, maintaining daily IT operations and reducing downtime.

PROJECTS

- **School Cashier System:** Full-stack billing and payment system built with Laravel and React..
- **AWS Cloud Resume Challenge** – Serverless website using Lambda, DynamoDB, and CI/CD (Terraform).

EDUCATION & CERTIFICATIONS

- **BS in Information Technology** | Cavite State University (Sept 2023)
- **Certifications:** AWS Certified Cloud Practitioner (2024), AWS re/Start Graduate, CSS NC2 – TESDA
- **Skills:** React, Laravel, PHP, MySQL, TypeScript, AWS, OCI, Docker, Linux (Ubuntu/Bash), Git.
